

PCB-01 V2 U13/U14 placement orientation

Component-side (top) view. Red pad is pin 1. J4 and board north are above both devices.

88 x 64 mm board context

U13

TPD2EUSB30DRTR | rotation 0 deg

Diagram of the U13 component footprint. It is a rectangular component with three pins. Pin 1 is a red square at the bottom-left. Pin 2 is a grey square at the bottom-right. Pin 3 is a grey square at the top-center. A small dark blue triangle points upwards from the top-center of the component.

PIN 1: USB_DP

pad 2: USB_DN

pad 3: AGND

Board center: X 112.000, Y 60.500

U14

TPD2EUSB30DRTR | rotation 180 deg

Diagram of the U14 component footprint. It is a rectangular component with three pins. Pin 1 is a red square at the top-right. Pin 2 is a grey square at the top-left. Pin 3 is a grey square at the bottom-center. A small dark blue triangle points upwards from the top-center of the component.

PIN 1: USB_CC1

pad 2: USB_CC2

pad 3: AGND

Board center: X 116.000, Y 60.500

Approve JLC placement only when both red pin-1 pads and all channel nets match this top-view callout.
