

PCB-01 V2 U1 pad 41 POFV map

Component-side (top) view. Fill and copper-cap only these twelve 0.30 mm plated holes.

Diagram labels use KiCad board coordinates. Excellon T2 uses the same X and negative Y.

KiCad X 82.85

KiCad X 84.00

KiCad X 85.15

Y 92.05

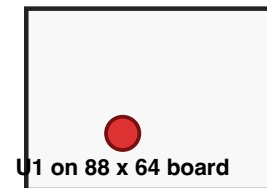

Y 93.35

Y 94.65

Y 95.95

U1 exposed pad 41, top solder-mask aperture remains open

Submitted drill identifiers: T2 ComponentDrill, X 82.85/84.00/85.15, Y -92.05/-93.35/-94.65/-95.95.

No separate bottom solder-mask openings. Require CAM confirmation before release.
